

Assignment Submission Guidelines

CS2710

21st August 2016

Please adhere to the following instructions before submitting Assignments failing to which will result in 0 for the concerned parts of assignment.

Please do following before you start solving assignment problems-

- Create a directory named as <your roll number in capital letters>_LAB for Lab-Assignments. ex- **CS12B032_LAB**.
- Create a directory named as <your roll number in capital letters>_HOME for home-work Assignments. ex- **CS12B032_HOME**
- Create another directory named **Code** within the parent directory created in first step and place all your programs files/codes(*.c) in this sub-directory. Everything else must be placed in the parent directory.
- Programs files must be named as <Question number in small letters>.c be it Lab or Home-work question. ex- **q1.c, q2.c, q3.c**
- All other files, such as plots, reports etc, must be named as <your roll number in small letters>_<Question no>.<file extension>, if file is generated with respect to a particular question. ex- plot, in .png format, generated for Question1 must be named as **cs12b032_q1.png**

Example: Suppose you are going to start Home-work Assignment2 which consists of 4 problems and Q2 and Q3 require you to generate plots and you save them in **.png** format. Then following is the expected tree-view of the directory, assuming the roll number of the person to be **CS15B073**
